|  
| Maxon \$79 a pair  
| Radio Shack Space Patrol \$39 a pair.

Oh, the Tandy ones here are on 55.050 MHz; they come down nicely to 52.525... And are also twice the price in Aussie rubles.

Maybe you get bored with such requests, but I haven't seen this recently,  
so here I go:

Does anyone have a fairly complete list of mods and other interesting stuff  
about the Yeasu FT-470 trx?

I would be very pleased if you would mail it to me.

If others are interested let me know, and I will send incoming info around.

Thanks in advance,

robs@stack.unc.tue.nl, aka PA3AXI

I have two large files containing several mods that I will email to you  
or anyone else upon request...

I live on 15th floor, with balcony on Lake Ontario, facing, south-south-west, at Hamilton, that's with Toronto, to my back...I haven't tried, asking to put antenna, on roof, but probably NOT able to do this.

To: ham-equip@ucsd.edu

I searching for modifications for the Icom R-70 receiver.

Yes, I know it's old but it works!
